New flat roof, guttering, fascias and some other repairs. 10 / 10

Efficient work, done on time and to budget. I was kept up to date from the start with a written quote delivered after on-site visits. All workers from the boss down were polite. All waste was cleared throughout the job.

Repair and maintenance of a private house. 9.7 / 10

Michael and his team did repair and maintenance work to the house of my elderly parents. The work included roofing, guttering, rendering, drainage and plumbing. Michael first carried out a careful inspection of the house and provided a detailed report and estimate of the required work. All the work was carried out on time, to a high standard, and with minimum disruption. Extra work was found to be needed, and fully discussed and explained before being done. The final bill was reduced because some of the estimated work was found to be unnecessary. In addition, Michael identified some additional work and carried it out without charge. Throughout the whole process, my parents were treated with great courtesy and consideration. I have no hesitation in recommending DNA Improvements.

Locksmith work changing two locks at a property following the execution of a Warrant for Possession by the County Court Bailiffs. 10 / 10

We are a law firm providing instructions to this company. Two members of DNA Home Improvements attended promptly and carried out their work in a quick, efficient, and professional manner even though the County Court Bailiffs had a difficult job on their hands with removing the obstructive tenant. We were fully satisfied with the perfect job done by DNA Home Improvements and would fully recommend their services elsewhere. We have also referred them to our clients for various other jobs such as building extensions, conservatories, roofing work, joinery work, and other building works and have had very positive feedback from our clients.
