Recent Customer Feedback

Broken lock on a UPVC front door.

10 / 10

Absolutely amazing service!! Was with us 10 mins before due time and did a professional job. Excellent value for the job done. Really, really nice guy, very helpful. I would highly recommend this company to anyone needing any work done in this field. Thank you so much.

Fit front and back door locks

Service was fast, (within half an hour of my leaving a call back request), efficient and professional. I would without hesitation use him again if the need arises and would recommend him to others.

Inner pane of double glazed sealed unit in bay window broken.

9.7 / 10

Dan of 'DR Locks' came out the same day. In contrast to another company who sent someone out to measure up and never came back to us! The sealed unit could not be repaired, but needed to be replaced with a new unit. As the glass had coloured sections and 'leading' (ie like old-fashioned leaded light), it was not as straightforward as plain glass. What I liked about Dan was his excellent communication. He kept us informed every step of the way, either by text or phone call, so we weren't left wondering what was happening. So many times in the past we have had to chase up tradesmen for information and often they don't even bother to return calls.
