New shower enclosure, mains shower and towel warmer in en-suite.

Julian completed this job superbly! From the initial quote and advice on materials, fixtures and fittings through to completion of the job and beyond. Our en-suite now looks modern and we've switched from an electric to a mains shower on his advice. His workmanship is great - pays attention to protecting your home when bringing materials in and out. We had a few teething problems with the sealant and he sorted these issues quickly and efficiently.

Remove and dispose of old shower and install new one.

Julian came and helped us specify and pick out the right materials and finish for the job. He measured up to ensure everything would fit and work the way wanted it.

Unlike other companies who might have reused our old plinth and waste, he insisted on building new one to meet his own standards. I'm pleased he did because its a much better finish and works better than the old one did.

Overall the materials specified and the craftsmanship exceeded our expectations.
