Liam did all the work and paperwork application. We are in a tree conservation area and they are not my trees. Job done neatly. We hardly knew they'd been!

This was done in about 1 1/2 hours Then as he had put me in touch with Tony Curtis The Stump Grinder note that Tony was a separate charge separate company £195 because he was also local as well to me. This guy came in behind Stan Timmins and grinded all stumps and any excess roots which could cause a problem, the soil was put back. About 3-4 hours for this process. Both company's left the areas clean tidy and I have no hesitation in recommending these guys together. Very professional 1st rate job worth the money I paid and extremely happy.

Had a corkscrew willow that needed to be named after it was planted in my front garden.

Liam identified the type of tree that we had straight away and how best to keep it under control. The guys turned up on time and checked with me or my wife on how we wanted the tree to look throughout the job and they tidied the felled branches afterwards. Friendly guys to speak to and got the job done on quote!
