Bathroom renovation

10 / 10

Fantastic job, I gave Andy a rough idea of what I wanted which can be a nightmare for any tradesman and he over delivered on the end result.

Kept to budget and over delivered on timescales. Also was extremely respectful and left no mess to clean up. Would recommend to anyone.

Replaced shower cubicle tiling with shower panels in en-suite including tray and shower panel.

10 / 10

"Good things happen to those who wait " we Knew we would have to wait for Andrew due simply to how busy he was following our quote to replace our shower cubicle tiling with shower panels in en-suite including replacing the shower tray and shower panel due to the very poor original installation causing a leak. Despite the wait Andrew kept us informed and updated to when could start the work.

We found Andrew and his assistant to be trustworthy providing good quality work and advice when required . They always cleaned up after himself every day and kept us informed how the job was going. Really pleased with the finished work which was as per the original quote.

We can thoroughly recommend Andrew to any one and will definitely use him again.

Andrew removed and replaced a shower for us, providing a new shower tray and enclosure, and adding panels to the wall and shower area.

10 / 10

Andrew and his team did an excellent job, completing work to a high standard. I was kept informed and consulted throughout the process so I knew exactly what was going on. Nothing seemed to be too much trouble, and I was impressed with the attention to detail, resulting in a high quality finish to the work. Would 100% recommend!

Complete removal and rebuild of bathroom.

10 / 10

Andrew gave us a full breakdown of costs to remove all the existing bathroom fittings and install new shower room. He had helpful advice for layout of the components. Execution was done with precision and care. Andrew is highly skilled, and is able to handle, plumbing, electrics, as well as the installation of the various bits of shower and vanity units. Not phased when asked to install insulation in the walls as none previously (dormer style room), hence additional cost. Was able to use his influence with suppliers on delivery of components. Kept us informed on progress and particularly when one or two issues cropped as they inevitably do. Work space was kept very clear and tidy, and when finished, you'd never know they had been in our house for 4 weeks! End result is excellent.
