My mother who is 92 had no hot water as her water heater had packed in and she was having to boil pans of water and carry them about. It was only about 5 years old so I phoned the installer of the boiler first

I looked on this site and found JR Plumbing. I phoned John and he came out within the hour. He was very pleasant and managed to fix the boiler there and then. I would definitely recommend him and have no hesitation in getting him again.
