Recent Customer Feedback

Wall knocked through between kitchen and dining room, existing steel lintels and masonry column removed. New steels installed, new electrics, plumbing, re plaster, flooring + kitchen fit 10 / 10

James is a top guy and got some great lads working for him. I can't praise him and his team highly enough, excellent from start to finish.

The team are all friendly + trustworthy, and made a real effort to keep the place tidy throughout. They even stayed late some evenings and worked Saturdays to make sure the job was finished on time.

James has a great eye for detail, makes good recommendations, and it's clear it's really important to him that you have a top quality product when the work is complete, and we're delighted with everything they've done. I'll definitely be giving them a call when we're ready for our next project.

Full refurbishment of a Tyneside flat, digging out and replacing rotten joists and repairing and tanking walls moving bathroom 9.8 / 10 and kitchen adding drainage through a load bearing wall and concrete rear yard. Cornicing matched in master bedroom and replaced

Flawless.

James and his team were very professional, hard working and their work was of a very high standard. They salvaged and reused as much of the original features of the property and were easy to get along with they did everything properly building control and architects, invoices and staged payments he has held of his last payment until all my snagging list is complete. Many thanks and will strongly recommend.

Total kitchen and utility room refurbishment 10 / 10

James and his team did an excellent job. The project was well planned and required skills coordinated at appropriate times. He is very tidy and works to a high standard of finish. James himself is very personable and easy to have a two way conversation on any improvements or changes that occur during the project. We are a very happy client.
