That statement is Scotts own on this website and it was 100% correct

Scott arrived about half an hour after I called him and fixed a leaking toilet having the spare part required in his van, in no time at all. All was left as he found it.

He was polite, punctual and affordable just as his statement says and I can only highly recommend him and will use him again for plumbing jobs.

Leak from below sink and inside boxed in area with difficult access. The leak had been undetected for some time owing to its location.

Scott was very professional, taking time to locate the source of the leak. He was polite and cleaned up after finishing the job. We were very impressed and would highly recommend.
