Conversion of existing conservatory to dining room extension.

10 / 10

A great team to work with. Gary and Sonny were the two guys we dealt with everyday of the project. We cannot praise them enough; courteous, polite, on time everyday, very hard working, and kept us informed of every step of the build. Gary explained each day's objectives in detail at the start of the day and provided us with a summary as they completed their shift. Wonderful support from Anthony and Paul throughout the project. The whole team engaged with us to include us in decision making and issues encountered. Surprisingly tidy throughout the period, much more than you expect during building work. They even drew praise from our neighbours who were delighted at how mindful of surrounding properties they were. Very pleased with the finished result. Cannot recommend this team enough.

Removal of existing conservatory, build a new kitchen extension, add a utility room within the garage space, lay garden paving.

We would highly recommend Viewpoint. The whole team including contractors produce excellent quality work and stick to the agreed estimate. They are very respectful of the customer and their property, cleaning up at the end of every day and keeping the workspaces tidy. The communication is good, and they give good and valuable advice. They arrived on time every day for 10 weeks, and worked non-stop until the finish. I couldn't fault their attitude and work ethic, and they're a pleasure to have around, and I would definitely call on them again for future work.
