Trees removal and stump grinding. 10 / 10

I have used this company before, and the service is absolutely first class. Very friendly and professional, Jim is an absolute asset to the company and explain things very clearly. The job started and finished on time they tidied up after I did exactly what I requested There was a number of large conifer trees at the back of the garden which they removed and took away and then came back a couple of weeks later to grind all the stumps to ground level
Absolutely first class. If you are looking for a tree doctor, don't look any further.

Cutting down a large conifer tree (approx 40ft) 10 / 10

Wholetree did a great job of cutting down a conifer tree (approx 40ft) in a fairly tight, awkward spot.. The team were very professional and knowledgeable, and cleared up the area when the work was finished.
The price was very reasonable for the work involved.
I would not hesitate to recommend Wholetree.

Cutting of hedges and pruning of some trees and large shrubs. 10 / 10

Splendid service. Did an excellent job, and dealt effectively with many years of undetected neglect. Punctual and cleaned up meticulously at the end of both days. Knowledgeable and helpful. I have had several firms in for this work annually and this company is by far the best I have engaged. Recommended with no hesitation.

We had a very large tree with Ash die-back which was overhanging our boundary fences and driveway which needed a large amount of removal to keep safe. 10 / 10

Excellent professionalism and care on the job with no damage and work completed exactly as agreed. Really thorough tidy up at the end and all wood removed.

Polite and clearly very knowledgeable to give the remaining tree a chance of recovery.

Would recommend to anyone that needs tree surgery.
