New wider brick drive installed with water channel fitted across front of house. Addition water channels fitted around back of house. Lifted brickwork and re levelled 10 / 10

We chose Rated Construction as we had already seen the very high quality of his work. He came on time to discuss the work we required and offered suggestions which we liked. We agreed the price and start date. He contacted us 1 month before the start date and explained what to expect on the start day and week. I cannot recommend Andy's company enough as his attention to detail is amazing. He checked in regularly with an update and ensured we were happy with his detail & progress. Every day he ensured the area around the front of our house was left tidy and safe. What more could you ask for. We absolutely love our new drive and have had lots of great comments. Would HIGHLY RECOMMEND. He is the most genuine and very honest guy. Thank you Andy.

Rated removed redundant block paving and dug out to reveal access to existing waste. Tapped into waste and installed linking surface drainage. levelled out some existing block paving and re-sanded where required. All waste removed and area swept clean.

Turned up when they said they were coming and didn't leave until the job was done

3rd time we've used this builder. It's good to have someone we can trust. Will use again and highly recommend.

Removal of chimney stack and making the roof good.

10 / 10

We first used Rated Construction Ltd. 10 years ago and were very happy with their work so they were an obvious choice for this job. Andy kept us informed in the run up to the job starting, and he and Adam completed the work to our total satisfaction. We would certainly recommend this company and wouldn't hesitate to use them again ourselves.
